

PETROMARK® 10116 LEAD REPLACEMENT

PETROMARK® 10116 LEAD REPLACEMENT is a safe and very effective valve seat protection additive especially designed for engines which require the protection of lead. This PETROMARK® product protects soft valves from premature wear and reduces engine noise. Eliminate loss of power and engine performance. This product is a so called one-shot bottle. Lubricates upper cylinder and prevents fuel system corrosion. Do not use on vehicles fitted with a catalytic converter! Add one bottle every time you fill up the fuel tank. The content of the 250 ml package is suitable for a tank content of max. 45 litres.
