

## **PETROMARK® 10121 BIO DIESEL ADDITIVE**

PETROMARK® 10121 BIO DIESEL ADDITIVE is a new high-tech additive with cleaning and protective properties especially developed for modern diesel engines which are running on BIO Diesel Fuel. This product improves combustion and reduces harmful exhaust gasses and odours. Suitable for all diesel engines, also common-rail engines, with or without turbo, passenger cars, trucks, tractors, construction machinery and stationary engines. The content of the 250ml. bottle is suitable for a tank content of max. 70 litres of BIO Diesel Fuel.
