

PETROMARK® 10208 GLUE SPRAY

PETROMARK® 10208 GLUE SPRAY adheres quickly and reliable and can be used in a variety of ways. On plastic, metal, glass, fabric, wood, paper, leather, styrofoam, rubber etc. Use: Shake can well before use. Spray the glue on both pieces to be glued together. When the solvent has evaporated (5 min.) join the two pieces together and press firmly. After use, invert the spray can and spray excess glue from the nozzle.
