

PETROMARK® 10261 BRIGHT ZINC SPRAY

PETROMARK® 10261 BRIGHT ZINC SPRAY is a quick-drying sacrificial coating that protects ferrous metals from oxidizing. It also provides the appearance of a high shine, hot-dip galvanized metallic finish. Extremely suitable for weld seams and zinc surfaces. Excellent for touch-ups to scratches, dents, welds, wear of machined edges on aluminium and other high shine metal substrates. Use: Clean and sand down surface, remove any rust. Shake can for 2 minutes. Spray to test. Spraying distance 25 cm.
