

PETROMARK® 10405 LITHIUM COMPLEX EP-2 GREASE

PETROMARK® 10405 LITHIUM COMPLEX EP-2 GREASE is a premium quality multi-purpose grease containing anti-oxidation, Extreme Pressure and anti-corrosion properties. Especially developed for the lubrication of roller bearings of vehicles. Suitable for use in all anti-friction and plain bearings subjected to very high load and shock forces, especially in severe operating conditions and over a wide temperature range while keeping its consistency. Has a very good temperature stability and a good adherence capability. Can be used as a substitute for several greases. Excellent protection against corrosion. For wheel bearings of passenger cars and trucks, wheel hubs and wheel bearings of trailers and caravans. Temperature range -30°C up to +150°C.
